

NEUERO

FARM- UND FÖRDERTECHNIK

Der Getreide-Fülliner

NEUERO Farm- und Fördertechnik

For over 100 years NEUERO has been established itself as a reliable, and professional partner for farmers, the grain trade, grain processing plants and for the wood processing industry.

We provide professional skills and foresighted planning. We lay attention to the efficiency of the facility to be installed. Moreover, we use equipment that is state of the art and calculate our costings keenly. Thereby the customer is assured of a reliable and cost-effective system that is adapted to his needs. Facility design also considers future expansions prospectively.
